CODE #1
SALON

This theme focuses on the beauty and wealth of red shades. Delicate mauve/powder pink variations and blush effects form the basis of a sensual colour scheme here. The spectrum includes all nuances – from delicate rosé to dark wine red and violet, from orange and terracotta to dark brown. Ethnic and folk influences reveal a poetic note. Nostalgia is interpreted in a very feminine and seductive way, but always in a soft and discreet manner. Materials are supple and soft. Featuring alongside “faux camaïeux” and graduated shades are velvet, suede and patent leather. Be they monochrome or with an abundance of prints – an imaginative mixture is called for here.

SIGNAL

A theme bursting with power! The new fashion sends out signals and catches the eye. Powerful! Artificial! Energetic! Flowing effects and movements, high-energy colours and wild combinations reminiscent of that 80s feeling make courageous statements here. Disco

meets gym. Streetwear is taken to the next level. A mix of colours and patterns. Bold tones like orange and red are combined with intense blue, green and pink on the verge of neon tones. Black & white serve as a formal framework for these refreshing colour experiments. In terms of materials, patent finishes, striking fantasy materials plus gloss enter into a dialogue with dull surfaces and high-tech galore.

CODE #3
SILENCE

Strength lies in calm. Calm, tone-on-tone and balanced colours make for a contemporary Zen look, though still in harmony with the renaissance of “power dressing”. A new formal attitude and intrinsic value give modern classics new sophistication. Neutral and pastel shades determine the colour palette. In terms of materials, designers have managed a high-wire act with natural-touch materials like blended double-face fabrics and plenty of wool next to transparency, coated with film, vinyl or a patent finish. The sophisticated mix of cutting-edge styles and classics signals high-end understatement: finest nubuk and nappa leather but also elegant metallics ensure an exquisite look at its best.

Im Mittelpunkt dieses Thema stehen die Schönheit und der Reichtum der Rottöne. Fragile Mauve-/Rosé-Variationen und Rouge-Effekte bilden die Basis für ein sinnliches Farb-Spektrum. Die Skala umfasst alle Nuancen – von Mauve bis zu dunklem Wein, von Ocker und Terracotta bis Dunkelbraun. Ethno- und Folk- Einflüsse sind durchdrungen von einer neuen Poesie. Nostalgie wird sehr feminin und verführerisch interpretiert, aber stets sanft und dezent umgesetzt. Die Materialien sind geschmeidig und soft. Neben Faux Camaieux und Abschattierungen kommen Velvet, Suede und Lack zum Einsatz. Ob monochrome Unis oder ein satter Print-Reichtum – der fantasievolle Mix ist gefragt.

In der Ruhe liegt die Kraft. Stille, Tonalität und Balance sorgen für einen zeitgenössischen Zen-Look, der dennoch im Einklang steht mit der Renaissance des Power Dressing. Eine neue Formalität und Wertigkeit verleihen der Modern Classic neuen Anspruch. Neutrals und Pastelle bestimmen die Farbpalette. Bei den Materialien geht ein Spagat aus natürlichen Fasern wie blended Doubleface und viel Wolle bis hin zu Transparenz, beschichtet mit Folie, Lack oder Vinyl. Der raffinierte Mix aus Modernität und Klassik zeigt Understatement in High Quality: Feinste Nubuks und Nappas, aber auch elegante Metallics sorgen für ein edles Materialbild erster Güte.
